Ok can you run it by Paul before we sign off on posting it? We may need to flag it for management and they will likely ask.

It appears from my email train that we both worked with R5 on this at one point. We met with R5 in June 2017 to discuss how the FP works (or doesn't work in this case). Then I have an email Nabanita sent requesting comments from me and Paul (you were not copied) on 7/21/17 with the draft that was signed 7/27/17. Nabanita raised the issue in the comments about if we should cite to the FP but Paul was out until 7/24/17. My hazy recollection is that I also thought the citation was weird but thought that Paul would be better equipped to respond. Then it was never raised again, I don't know if Nabanita ever shared her comment with R5, or if they just went on without us.

Did you work with R5 on this one? It seems odd to cite to a proposed rule.

Marcia,

Thanks. I am puzzle about 1700043 entry- they know we are uploading final AD letters. I will check with them.

Attached the AD letter for the one you requested. We did some screening and in the back and forth this one was not included in the zip file.

Thanks.

Maria

My comments attached. Mostly some editing suggestions. The one upload from R6 – 1700043 isn't really an AD. They never issued it as such. Not sure we should include it?

Also I wanted to see the abstract for FP00001. It wasn't in the zip file. Thanks.

Subject: Input on ADI Update FRN AD list/abstracts needed ASAP

Hello All,

Attached is the Federal Register Notice with a list of ADs to be published on the ADI and related abstracts for your review. I would need your input ASAP to complete the ADI update within the next few weeks. Let me know what is your timeframe for providing input on your sector ADs.

Please review AD list and abstracts to identify any ADs that should be taken out of the ADI batch for any reason (e.g., being inconsistent with current policy, incorrectly issued. Etc.), and provide any edits if you wish. Please note that I also plan to send the FRN to

the Air Enforcement Managers to make sure we did not overlook at an AD with issues, before routing to senior management for approval.

- Rob- There is one AD on the OIAI policy [M170018-see page 19]. I do need to know if we continue adding these old ADs with the disclaimer that was added to others since the ADI is a historical database.
- Please note that I already took some considerable time screening out ADs from the batch and revising abstracts based on review of the AD letters and per the request of regions. [Patrick-I will send you the redline version].
- If you all want to review the AD letters, I also provided the zip document with the AD documents.

Thank you for your support!

Maria
